

Do you want to **save 85%** on your local authority's handwashing costs?

Top marks for Wallgate

The Wallgate range of handwasher driers scores top marks in every public convenience.

In 2008 over twenty local authorities won top 5 Star ratings in the UK's foremost "Loo of the Year" award using Wallgate sanitaryware.

Wallgate's energy efficient, water-saving range of handwasher driers can help you save 85% of your running costs against conventional handwashing options.

Our units can save up to £1,300 per handwash unit in the first year - with invest-to-save payback inside a staggering 12 months.

Not only do they save local authorities' budgets, but with no taps or exposed services, our robust composite solid-surface sanitaryware is resistant to vandalism and greatly reduces the risk of flooding and misuse.

Wallgates look great and come in stainless steel or a colourful range of damage-resistant, composite materials. They save space and dramatically cut cleaning times, repair and maintenance costs.

Wallgate Handwasher Driers provide the perfect solution for every local authority public convenience. Turn over to see what other local authorities think!

Wallgate saves you money... cuts your carbon footprint... saves water!

Fact Box

1. As an indication of potential savings, an installation of 9 handwash units on the Suffolk Coast was used 23,630 times per unit in a year, saving **£11,700** on soap, warm water and paper towels.
2. Wallgate Handwasher Driers also **save space!** Compared with a wash basin, soap dispenser, paper towel dispenser and waste paper bin. A Wallgate recessed handwasher drier saves 0.4 sqm per unit.

"Bournemouth can have 100,000 people descend on the beach front for the day so the beach front toilets need to be well prepared. Certainly the Wallgate's get well used and they cope brilliantly."

John Spiller
Assistant Technical Officer
Leisure Services,
Bournemouth Council

"In dealings with Wallgate staff I had easy access to their technical know how which made specifying easier and Wallgate coped very well with client changes to the scheme.

I have seen first hand how the Wallgate products coped with a large volume of people using the facilities. Despite the real "bashing", they performed extremely well."

Steve Holland
Architect for Pearn & Proctor,
(Architects for West Devon District Council)

"In use we have found the units to be reliable and the service that we receive from the manufacturer to be prompt and efficient. We are continuing to specify these units for our current round of public toilet upgrade and refurbishment schemes."

Clive Ricketts
Property Services, Torbay Council

"Wallgate's existing track record with the council meant they could trust that the units were truly designed for a long life and they could rely on Wallgate's excellent on-going maintenance to extend their usefulness."

Jenny Warner
Waveney District Council
